

Annual Conference

October 11 2011

Chesford Grange, Warwick

The Institute Of Quarrying

Energy Management & Cost Saving Initiatives

The Institute Of Quarrying

Annual Conference

October 11 2011

Chesford Grange, Warwickshire CV8 2LD

Meeting and Social Programme

Monday 10th October

- 14:00 Council Meeting
- 16:30 Institute AGM
- 16:45 Benevolent Fund AGM
- 19:00 Drinks Reception
- 19:30 Welcome Dinner

Tuesday 11th October

- 08:30 Registration
- 09:15 Symposium
Commences
– see programme
- 12:30 Lunch
- 16:15 Close of Event

Energy Management & Cost Saving Initiatives

Registration opens at 08:30

Programme

09:15 – 09:30

Welcome

09:30 – 10.10

Greg Elliott, IPS Group, USA

The managers guide to new found profits in the age of energy efficiency

10.10 – 10.40

Graham Coyne, Siemens

Engagement between industry, suppliers and the potential benefits

10:40 – 11.10

Coffee Break

11:10 – 11.50

Sessions A & B 1

11:50 – 12:30

Sessions A & B 2

12:30 – 13:30

Lunch

13:30 – 14.10

Sessions A & B 3

14:10 – 14:50

Sessions A & B 4

14:50 – 15:30

Sessions A & B 5

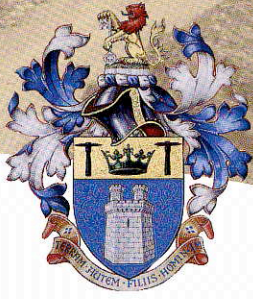

15:30 – 16:00

Ian Fox, RWE Power, The supply of renewable power in the extractives industry

16:00 – 16:10

Closing Remarks

Six hours
of accredited
CPD

Welcome Invitation

The Institute of Quarrying's conference theme in 2011 centres on energy management and cost saving initiatives. The subject area is of particular importance given current economic circumstances within our industry. The challenges in operating in this environment have never been greater and any help in ways of reducing costs and improving efficiency should be welcomed.

The conference will be held at Chesford Grange near Kenilworth on October 11th 2011. The location is centrally placed in the UK and has good connections to all major motorways. The venue enables the Institute to operate the conference with two streams. Plenary sessions at the start and end of the day which will focus on wider industry topics.

The conference will appeal to senior managers, operational management, supervisors and any person who works within the extractives and mineral processing industries with production responsibilities.

The speaker list is extensive, with plenary sessions provided by Greg Elliott founder of IPS Group, currently working with major mineral suppliers, giving an overview of not only energy efficiencies but how to profit from them. Graham Coyne of Siemens will cover the benefits of engagement between industry and suppliers and Ian Fox of RWE Npower will look at renewable power in the extractives industry.

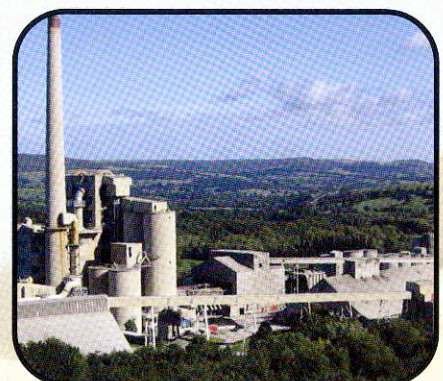

The Programmes

(Session A) will cover the following subjects:

- A1 Energy saving through tyre innovations**
– Peter Goodman (Michelin)
- A2 Mobile equipment supply chain energy management**
– Jonathan Hurley (Volvo CE)
- A3 Use of wet restored mineral workings for energy recovery**
– James Dodds (Envireau Water)
- A4 Improving quarry sustainability by biodiversity offsetting**
– Simon Higson (SLR Consultants)
- A5 Supply of high quality sand and aggregates through effective recycling** – Peter Craven (CDE)

(Session B) will cover the following subjects:

- B1 Training to reduce costs**
– Hefin Jones (AI)
- B2 Energy and environmental value proposition**
– Luke Dale (Siemens)
- B3 Equipment condition monitoring in extractives**
– Mike Deakin (Proviso)
- B4 The proven track of continued change within the extractives industry**
– Stefan Eldred (Tarmac)
- B5 The benefits of binder grade correction**
– Ian Lancaster (NYNAS)

EVENTS BOOKING FORM

To be returned to Lyn Bryden, Secretary
The Institute of Quarrying, 7 Regent Street, Nottingham NG1 5BS
Tel: +44 (0) 115 945 3880 Fax: +44 (0) 115 948 4035

Full payment will be required for cancellations made after 3 October
