

S5 – Confined Space Checklist H&SCS01

Confined space location

Identification number

Description of works

.....

Date Time from Time to

If you are unable to answer Yes or N/A to any of the following questions then Confined Space entry MUST NOT go ahead.

	Yes	N/A
1. Has all appropriate piping been drained and isolated?	<input type="radio"/>	<input type="radio"/>
2. Has the confined space been drained of its contents?	<input type="radio"/>	<input type="radio"/>
3. Has the confined space been cleaned with a suitable cleaning agent?	<input type="radio"/>	<input type="radio"/>
4. Have all residues been cleared?	<input type="radio"/>	<input type="radio"/>
5. Have the heating and cooling systems been isolated and made safe?	<input type="radio"/>	<input type="radio"/>
6. Has electrical equipment been disconnected and fuses withdrawn?	<input type="radio"/>	<input type="radio"/>
7. Has electrical/pneumatic equipment been disconnected and stored energy dissipated?	<input type="radio"/>	<input type="radio"/>
8. Has the atmosphere been tested?	<input type="radio"/>	<input type="radio"/>
9. Was the oxygen level satisfactory?	<input type="radio"/>	<input type="radio"/>
10. Was the flammable vapour level negligible?	<input type="radio"/>	<input type="radio"/>
11. Was there an absence of toxic substances?	<input type="radio"/>	<input type="radio"/>
12. Was the temperature suitable?	<input type="radio"/>	<input type="radio"/>
13. Is breathing apparatus required for entry?	<input type="radio"/>	<input type="radio"/>
14. Have users been adequately trained to use the breathing apparatus?	<input type="radio"/>	<input type="radio"/>
15. Is lifting equipment required and in place?	<input type="radio"/>	<input type="radio"/>
16. Has low voltage equipment been provided?	<input type="radio"/>	<input type="radio"/>
17. Is all electrical equipment fitted to a residual current device (RCD)?	<input type="radio"/>	<input type="radio"/>
18. Is a rescue kit available at the point of entry?	<input type="radio"/>	<input type="radio"/>
19. Has the rescue plan been communicated and made available?	<input type="radio"/>	<input type="radio"/>
20. Is all personal protective equipment in good condition (including safety harnesses)?	<input type="radio"/>	<input type="radio"/>
21. Has the safety watch/supervisor been identified and does he/she understand his/her responsibilities?	<input type="radio"/>	<input type="radio"/>
22. Has suitable signage been displayed around the confined space area?	<input type="radio"/>	<input type="radio"/>
23. Has a permit to work been completed and if so, is a copy available near the point of entry?	<input type="radio"/>	<input type="radio"/>
